

El Dorado
HISTORIC
PRESERVATION
PLAN

COMMUNITY OPEN HOUSE

Welcome!

The City of El Dorado has initiated a planning process to create a Citywide Preservation Plan. The central objectives of the Plan are to identify critical preservation issues and create specific, realistic and achievable strategies for enhancing the City’s current historic preservation program. Creation of the plan will include:

- Analyzing existing City policies, ordinances and procedures and recommending ways to improve or enhance them;
- Reviewing existing local historic district designations and National Register listings;
- Recommending potential areas or buildings in El Dorado for additional research and potential future designation;
- Working with the community to hold public open houses and to gather input and identify important places and critical preservation issues.

WE NEED YOUR INPUT!

Throughout the workshop there will be multiple engagement exercises; please look out for the exercise icon  on the up right hand corner of the exhibits.
