

# 2023 CUMBERLAND HISTORIC PRESERVATION PLAN

Cumberland's Historic Preservation Plan – now underway – will explore how preservation can strengthen the city's housing, neighborhoods, and economic development. The goal is to draw attention to the city's historic and cultural resources and to Cumberland's stories.

The Plan will involve extensive community input through focus groups, public workshops, and an online survey.

Visit the project website for more information, meeting notices, and plan documents, and to tell us what you think!
